NEW UNI-TER WEBSITE INTRODUCES MANAGEMENT AND CREATIVE SERVICES

Atlanta, GA – Uni-Ter Underwriting Management Corporation (UUMC) has just brought a new, state-of-the-art website online, www.uni-ter.com, to introduce the Company's management and creative services to the insurance industry, Sanford "Sandy" Elsass, President/CEO, announced.

Uni-Ter is a managing general underwriter and insurance services firm that builds and manages Risk Retention Groups and other Alternative Risk Transfer insurance mechanisms in the healthcare field. It is a subsidiary of U.S. RE Companies, Inc., the New York-based, international financial services firm.

UUMC manages Risk Retention Groups that provide liability insurance to healthcare facilities in 47 states and medical malpractice insurance to physicians/surgeons in the Northeast and nurses in Florida. The Company underwrites insurance for all forms of long-term care facilities, home healthcare, and surgical centers in addition to medical practitioners.

The website gives visitors access to Uni-Ter's wide range of products and services. The Company creates Risk Retention Groups for clients and provides one-stop management services that include professional underwriting, risk management, and claims handling. Uni-Ter also offers risk management services on a stand-alone basis as a Third Party Administrator.

Company executives are listed along with biographical and contact information. Links are provided on the website to each of the RRGs managed by UUMC. A Resource Center connects viewers to major trade media and provides a Risk Managers' Notebook containing articles by clinical nurses on the Uni-Ter risk management staff. The News Center enables media to get quick answers to any questions regarding the Company along with news releases.
